Calculus BC	French Language	Statistics
Chemistry	Macroeconomics	US Government
English Language	Microeconomics	US History
		World History

Districts desiring other courses are encouraged to contact Sharon Purcell at sharon.purcell@state.nm.us.

 Denotes textbook required. Schools may obtain textbooks directly from Aventa Learning or contact IDEAL-NM office for assistance (505-383-2400) or info@ideal-nm.org.

Courses may be accessed by students any time: day or evening. The most commonly used model is for schools to register students and give them computer access at a scheduled time during the regular school day to complete their coursework. Schools needing other courses are encouraged to let us know so that we might schedule courses to meet those needs.

Registration:

Schools are requested to designate one staff member to register students and act as a site coordinator for IDEAL-NM courses.

Course Fees:

Schools will be invoiced \$200 for each semester seat. Regional Education Cooperatives have special incentives for member districts.
