

# DIBELS® Summit 2010

**Research | Advanced Implementation | Leadership | Interventions**

## DIBELS Summit Overview

DIBELS Summit 2010 is an exciting learning opportunity for DIBELS leaders, researchers, and implementation team members who are seeking additional knowledge and professional dialog to facilitate their learning and work with the Dynamic Indicators of Basic Early Literacy Skills (DIBELS).

Breakout sessions on research, leadership, advanced implementation, response-to-intervention, linking DIBELS to instruction, and models of effective pre-service will allow participants to increase their knowledge and skills, as well as dialogue and network with colleagues and nationally-recognized experts.
