

# STATEWIDE TECHNOLOGY INITIATIVE

REGIONAL EDUCATION COOPERTIVES (RECS)  
IMPROVING TECHNOLOGY SUPPORT STATEWIDE!

## PROJECT OVERVIEW

The New Mexico Regional Educational Cooperatives Association (NMRECA) in New Mexico are in the best position to assess the needs of its member districts and identify solutions for their member districts. This can include using high school or community college students to build infrastructure support capacity. The NMRECA will address three areas of concern for tech support: Information Technology, Educational Technology, and Professional Development.

By collaborating with the Regional Education Centers, three areas of support can be addressed:

- Support for devices including laptops, Chromebooks, tablets, and home connectivity
- Support for students, parents, families, and teachers in the adoption of technology for remote learning use
- Support educators make the most of technology to effectively deliver digital educational content for remote and in-school use.

## 5 PROJECTS TO SUCCESS!

### 1) EXPAND ACCESS TO TECHNOLOGY

Providing additional funding directly to New Mexico School Districts to support Informational Technology, Educational Technology, and Professional Development.

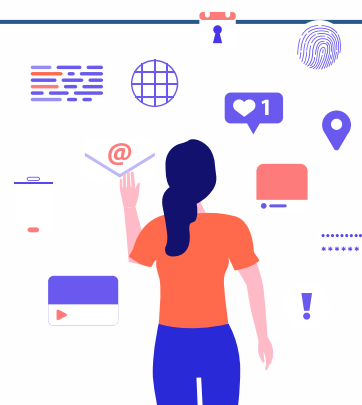

### 2) FREE STATEWIDE TECHNOLOGY CALL CENTER/HELPDESK

Student-driven technology support desk available to New Mexico School Districts, Students, and Families.

### 3) EDUCATION TECHNOLOGY

Statewide Academic Competition for Students. The RECs will hire multiple Digital Learning Coaches to help teachers implement technology in the classroom.

### 4) REC'S PROVIDING STATEWIDE TECHNOLOGY PROFESSIONAL DEVELOPMENT

Each NMREC provides free virtual monthly professional development.

### 5) DATA COLLECTION

Each REC will have a specific data analyst who reports project activities.
